

VITASOOOTHE

HELPING TO REVITALIZE  
YOUR MATTRESS

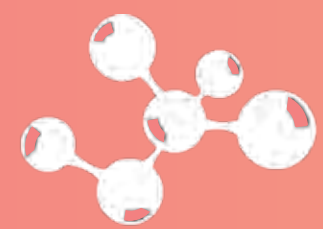

# FAR-INFRARED TECHNOLOGY

OUR VITASOOTHE TREATMENT CAN IMPROVE THE QUALITY OF YOUR SLEEP BY PREVENTING ENERGY LOSS.

## Ingredients

- Oxidized Silicon
- Magnesium
- Alumina
- Sodium
- Calcium
- Oxidized Steel

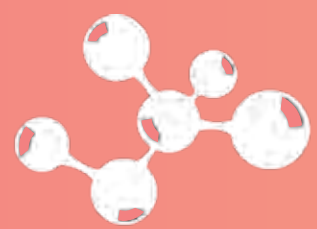

VITASOOTHE

## HOW IT WORKS

Jacquard infuses a unique combination of six minerals into the fabric, which helps it absorb and reflect back the infrared rays your body emits while sleeping. Your body can then use this extra energy to optimize all kinds of body processes, like improving blood circulation, lowering muscle fatigue, and optimizing overall balance.

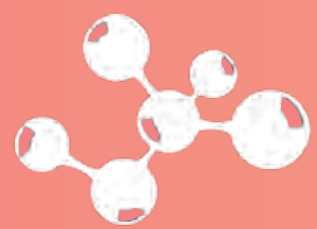

VITASOOTHE

FEEL THE DIFFERENCE

Our Vitasoothe treatment can help sleepers in a manifold of different ways. Improved circulation means that your body's organs are getting more oxygen and that your hands and feet are less likely to be cold, which means you wake up more balanced and energized.
